

Product Quality Management

Product Quality Management is only valid if it is embodied

MANAGE QUALITY TO ENSURE PRODUCTS' COMPLIANCE

- You have a significant backlog of recurrences ?
- The root causes are not well-identified and events are recurrent ?
- Deviations are not managed and controlled ?
- Delays due to Quality issues have strong impact on your Customer service ?
- You are experiencing turnover and losses of investigation expertise ?

SELECTION OF LEVERAGE ACTIONS

KEY CHALLENGES

Clearance of the
Backlog

Up to
75%
decrease in the
batch release time

Down to less than
20
on-going deviations
in the portfolio

Certified Training organization :
846 91 677 669
Datadocké
